

# FLEET VISTA™

Fleet Management  
for iDigi™

## Experience Control™ Any Fleet. Anywhere.

FleetVista – the **web-based service** that can **manage and control** any size or type of fleet.

Plan the **most efficient routes**, then monitor the location and status of vehicles to reduce driving hours, fuel costs, and wear and tear on your vehicles.

### BENEFITS OF CONTROL

Our FleetVista service offers:

#### ■ *Cost-Efficiency*

Subscribe to a low-cost monthly service. Plan more efficient routes with FleetVista to serve more customers, reduce fuel costs, cut overtime hours, and reduce vehicle maintenance.

#### ■ *Fast Time-to-Benefit*

With FleetVista, there is no software to install and maintain, and no need to develop a custom application. Simply subscribe to the FleetVista service and provision it with information about your vehicles and drivers.

#### ■ *Fixed or Dynamic Routing Capabilities*

FleetVista software lets you schedule and plan recurring routes as well as manage and even adjust dynamic routes at just a moment's notice.

#### ■ *Industry Flexibility*

FleetVista works with any type of fleet in any industry: delivery routes, field service routes, maintenance routes, and more.

#### ■ *Real-Time Visibility*

Interactive Silverlight user interface shows real-time vehicle locations, customers, and routes.

*"We are excited to expand our partnership with New Boundary Technologies and provide our mutual customers a **complete fleet management solution** combining Digi's **robust in-vehicle hardware** with New Boundary Technologies' **fleet management software** to help customers monitor their fleets and create more efficient vehicle routes."*

*Larry Kraft, SVP Global Sales and Marketing, Digi International*

### DELIVERING CONTROL

#### ■ *Fast and Simple Communication*

Send routes and instructions to your drivers with the click of a mouse.

#### ■ *Advanced Reporting*

FleetVista maintains a historical record of vehicle routes, breadcrumbing, and load and delivery history.

#### ■ *Compatibility*

For interactive driver communication, FleetVista works with a wide range of off-the-shelf smartphones, PDAs, Netbooks, laptops, and tablet PCs.

#### ■ *Seamless Integration with TankVista™*

Coordinate your vehicle routing with your tank inventory management by adding TankVista services into your solution.

#### ■ *In-vehicle Monitoring*

Using the low-power network of the iDigi X5, sensors can send readings to FleetVista for tires, latches, refrigeration units, and other critical monitoring points.

**FLEETVISTA FOR IDIGI™  
EXPERIENCE CONTROL**

■ **iDigi™ Integration**

FleetVista integrates with Digi's iDigi™ hardware platform to provide complete remote monitoring and fleet management solutions for any fleet using the ConnectPort X5 in each vehicle.

■ **Private-Label Solutions**

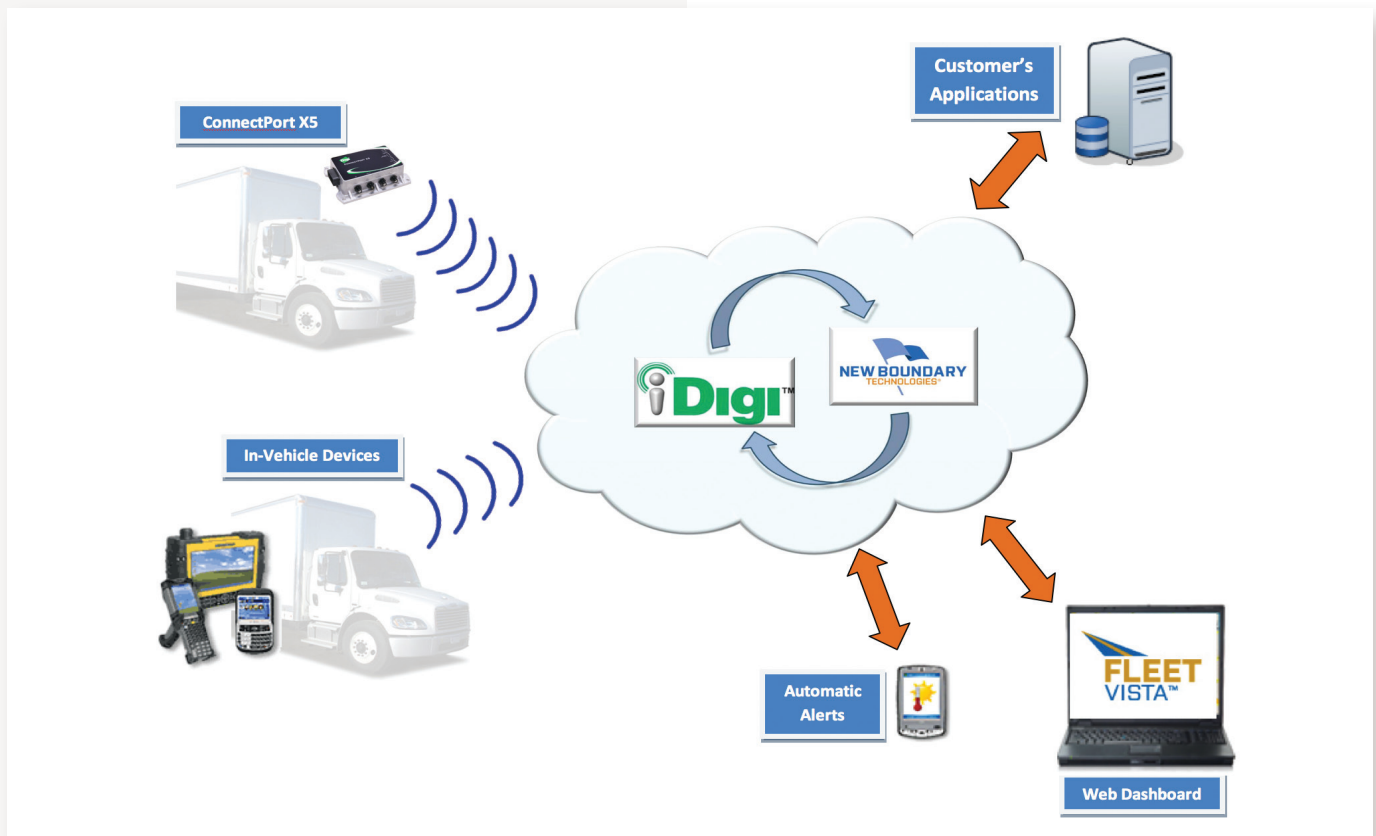

Offer a fleet management service as an added benefit to your customers. We offer private-label solutions for providers of inventory management or supply chain management services.

■ **Instant Communication**

Notices can be sent to drivers instantly to alert them of a route change or any other critical announcement.

■ **Seamless Integration**

Simple integration with your current back-end management software (CRM, ERP, etc.) sets our solutions apart. You can transfer driver information, customer and destination information, and more.
